

Supplemental figure 1. Mitochondrial stress test comparing B cells (A – D) and CD44⁺ CD4⁺ T cells between 2 month old B6 TC and BWF1 mice (N = 3 each). OCR time course (A and E) and basal OCR (B and F); ECAR time course (C and G) and basal ECAR (D and H). Mean \pm SEM, compared with one-tailed t tests, * P < 0.05.
